# Builder+Architect<sup>®</sup> Magazine

A BUSINESS MANAGEMENT MAGAZINE FOR THE BUILDING INDUSTRY

**PROJECT:** Concord, MA—LIME painted all the trims, fascia, soffits, crown moldings and shutters, restored the front door, built a portico and restored garage doors. The deteriorated trim boards throughout the home were replaced by LIME's carpenter with vertical/horizontal trim boards, crown molding, skirting, new gutters, windowsills and lapped siding.

LIME's mason demolished the platform and brick walkway and built a new granite platform and paver walkway leading to the driveway.

Marc Segien, Owner

## LIME Painting of Boston

The authority in luxury painting and coatings in Boston and surrounding communities.

**Allen Farm Grey House—LIME painted the full exterior body and trims throughout the entire home with Benjamin Moore Aura Paint. The carpenter replaced the deteriorated trim boards, and the screen in the porch decking was replaced.**

LIME PAINTING OF BOSTON, MASSACHUSETTS is a residential and commercial painting company that specializes in the industry's best products and procedures to ensure quality prep, quality products, custom results and lasting impressions on the interior and exterior. LIME's team, which consists of LIME Certified Consultants and some of the area's best professional painters, supports that effort.

Owner and leader of the team, Marc Segien, was born and raised in the Greater Boston area. After completing his degree at Wheaton College, he began a career in sales. Marc has nearly 20 years of experience working with executives and strategic partners to provide solutions to the many business challenges companies face today.

A paint job is important to maintaining the aesthetics as well as the integrity of a home or office space. From a standard repaint to a paint job that's heavily distressed, LIME is prepared and qualified to take on the task. LIME's expectation for customer excellence has made LIME Painting of Boston the most trusted and highly

recommended painting company. Working with LIME is easy, enjoyable and refreshing!

"At LIME Painting of Boston, we understand that tackling a painting project can feel overwhelming, especially if you lack necessary skills or equipment," Marc said. "That's why we offer an extensive range of services to help you transform your home into the haven you've always envisioned. Whether it's restoring your distressed exterior or completely renovating your interior, LIME's core values of Love, Integrity, Mission and Excellence exceed the expectations of homeowners and builders."

"At LIME, customer satisfaction is our highest priority," Marc continued. "We prioritize close collaboration with clients to understand their preferences and needs, while our color consultants help you choose the perfect paint colors. We use top-quality materials and techniques, ensuring high standards for your project. Additionally, our detailed and transparent upfront pricing ensures that you have a clear understanding of what to expect before your project starts."

## LIME PAINTING'S PROFESSIONAL PAINTERS DO MORE THAN PAINTING AND RESTORATION

LIME's carpenter built a new deck, replaced vertical/horizontal trim boards, lapped siding and windowsills, and installed new front porch steps. The paint was faded, peeling and chipping, and the indoor paint contained lead. LIME is licensed in Massachusetts to remove lead with the Mass Lead Deleader Contractor license. The full exterior of the home was primed and painted with two coats of Sherwin Williams Duration Paint. More than six colors were used on the home.

With LIME, you can trust in quality consulting to maintain a highly valued asset with solutions that match the custom nature of the project. You can also count on excellent delivery of the recommended scope of work. LIME's team of advisors audits each phase of the project so that you don't have to.

In addition, LIME has color designers who can, at your request, offer a professional eye for color to the process. LIME's designers take your vision into account, along with the property's accents—such as the existing brick, the landscaping, the roofing system, etc.—and generate color combinations onto a detailed color report for your property. You can use this report and sample color combinations to visualize your preferences prior to making a final decision.

LIME Painting is compliant in Leadership in Energy and Environmental Design (LEED). LEED is a sustainable building certification program developed to provide a consistent, credible set of standards for environmentally sustainable construction. LIME is committed to using premium eco-friendly products with low VOC and mineral masonry paints from the top paint supply.

The full interior of the home was painted. The kitchen cabinets were painted with Sherwin Williams Emerald Paint. LIME installed new hardwood floors and vinyl planks throughout the home and installed a backsplash in the kitchen.

Custom cabinetry painted by LIME Painting

LIME Painting repaired all EIFS around garage and trim and painted the exterior. LIME color consultant helped the homeowner choose colors from Sherwin Williams Duration Paint.
